

STAB-38 Couplings for Steel Pipe

The Dresser STAB-38 Coupling is a true "packaged" pipe joint ready to take out of the carton and slide onto the pipe. Available in sizes from 2" through 12", these couplings are factory-assembled with no loose parts. It only takes a matter of minutes to make absolutely permanent, tight joints and easier, faster pipe joining. STAB-38 couplings are supplied with armored or armored pinned gaskets and come in clearly marked cartons to simplify warehousing.
