Complete Electronic
Metering Solutions
(Correctors, Pulsers, Etc.)

GE/Dresser's Roots Meters and Instruments are available for natural gas submeter applications. Applications include:

- **Industrial:** Individual monitoring of process equipment such as boilers, furnaces, & ovens.
- **Commercial/Institutional:** Monitoring individual zones in shopping centers, college dormitories, & government facilities.
- **Residential:** "Green" buildings, hi-rise buildings, large residential projects requiring energy management systems.

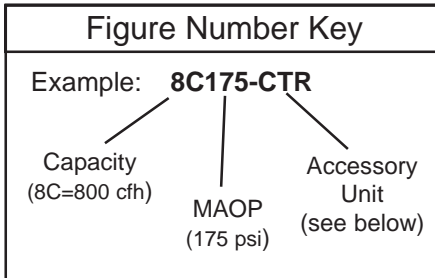

**For more information, or for a current quote, call 800-221-1157
or fax this page to 516-277-2177.**
