Approval: _____

“Sammys” Screws[®] for Wood - Straight

Design Features:

- Steel Construction
- Electro-Zinc Finish
- Domestic

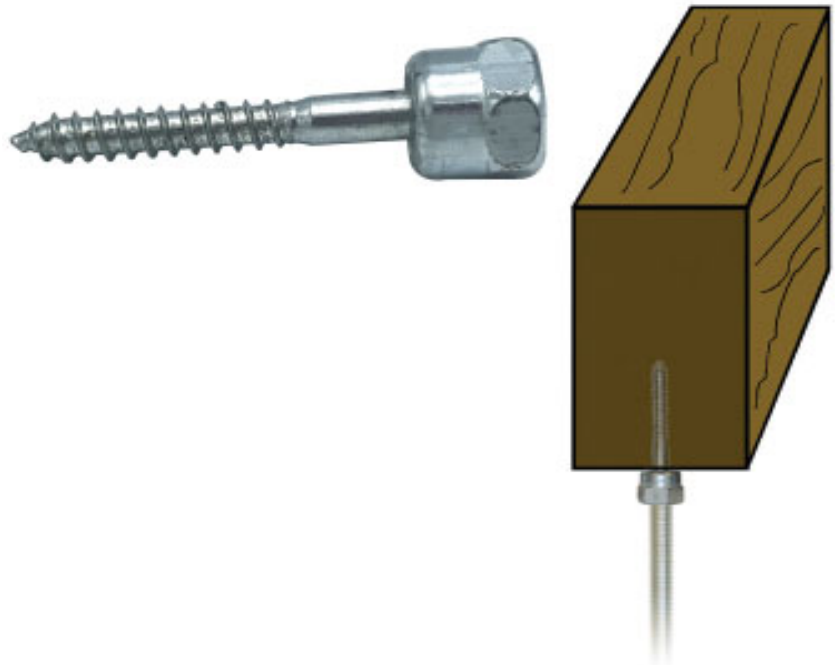

Operating Specifications:

UL Minimum Wood Thickness: 1-1/2”
 Rod Size: 3/8” x 16T

Recommended Installation Tool:

Sammys[®] Nut Driver (Black)
 W-R # 2440102

Use: For use with a 3/8” threaded rod. Screw installs vertically onto the bottom of wood structures easily and quickly reducing installation time and material costs.
